RE: Support for CFPB Section 1071 Rule and Opposition to Congressional Review Act to Overturn 1071 Rule

Dear Speaker Johnson and Leader Jeffries,

We, the 84 undersigned organizations, write to express strong support for the Consumer Financial Protection Bureau (CFPB)'s Section 1071 rule on Small Business Lending Data Collection under the Equal Credit Opportunity Act, and also to express strong opposition to any Congressional Review Act resolutions that would overturn CFPB Rule 1071.

Section 1071 of the Dodd-Frank Act amended the Equal Credit Opportunity Act (ECOA) to require financial institutions to compile, maintain, and submit to the Bureau certain data on applications for credit for all defined small businesses, including women and minority-owned small businesses. To be clear, Section 1071 is not optional – it is legally required by Dodd-Frank. CFPB's regulatory updates are designed to implement section 1071 as intended by Congress, and our organizations strongly support this effort.

The CFPB's regulatory updates are common sense efforts to improve the public's understanding of the impacts of lending, including agricultural lending, on-the-ground, and ultimately inform policy that is good for farmers, consumers, and our food and farm systems.

Rule 1071 Is Pro-Farmer and Pro-Market

The Section 1071 rule is pro-farmer. Young, beginning, and small farmers have consistently demanded more transparent and fair markets. Having accurate and public data concerning the demographics primarily served by agricultural lenders will help farmers and consumers make better-informed financial decisions.

The Section 1071 rule is pro-market. The data required by Section 1071 will help lenders identify unmet credit needs and expand to new markets, especially in underserved communities. The rule contains no mechanism to penalize lenders based on the demographic data reported. Collecting loan applicant demographics is not new to the vast majority of lenders covered by this rule and many **Farm Credit System lenders already collect home loan borrower demographics** as required under the Home Mortgage Disclosure Act.

Why Agricultural Lending Data is Critical

Creating effective and fair policy requires data. To help ensure collection of more robust data, it is critical that agricultural lenders — including those regulated by the Farm Credit Administration, whose mission is to "ensure that Farm Credit System institutions and Farmer Mac are safe, sound, and dependable sources of credit and related services for all creditworthy and eligible persons in agriculture and rural America"[1] – participate in demographic reporting.

Two Government Accountability Office reports support the application of Section 1071 to agricultural lending: *Agricultural Lending: Information on Credit and Outreach to Socially Disadvantaged Farmers and Ranchers Is Limited,* and *Fair Lending: Data Limitations and the Fragmented U.S. Financial Regulatory Structure Challenge Federal Oversight and Enforcement Efforts,* which note that "Congress should consider requiring additional data collection and reporting for non-mortgage loans."[2]

Transparent demographic data from agricultural lenders may provide insight on such trends as the dramatic decline of Black representation in farming and farmland ownership, as chronicled in several government records:

- Federal Register announcement in Section 1002.104(A), "the share of minority representation in farming, particularly that of Black farmers, has declined sharply over the last 100 years." The precipitous decline is due in-part to historical lack of access to credit for Black farmers from agricultural lenders. Yet, the absence of data collection requirements make evaluation challenging in the extreme.
- Census Bureau 2019; USDA 2019: 90% of land accumulated by Black Farmers has been lost, and even though Black, Indigenous and other People of Color represent nearly one-quarter of the US population, they operate less than 5 percent of the nation's declining number of farms, and cultivate less than 1 percent of its farmland

Additionally, we also **oppose H.R. 2423, the Farm Credit Administration Independent Authority Act**, which would exempt the Farm Credit Administration from the CFPB Section 1071 rule.

Conclusion

The undersigned organizations urge you to support the Consumer Financial Protection Bureau's strong support for the Consumer Financial Protection Bureau (CFPB)'s Section 1071 rule on Small Business Lending Data Collection under the Equal Credit Opportunity Act, and also to express strong opposition to any Congressional Review Act resolutions that would overturn CFPB Rule 1071.
